About Us

Established in 2014, Company Inc has been dedicated to helping students build fulfilling IT careers through training and mentorship. Whether you are looking to level up your IT skillset or a complete career transformation, Company Inc can help you achieve your career goals. Our unique blend of hands-on training, virtual and in-person, coupled with our client-centered mentorship has helped countless students attain the IT career of their dreams and success in corporate positions.

OUR STUDENTS HAVE BEEN HIRED AT:

ABC In, Corporation Inc, Telecommunications In, Band of Country, Information-Technology Company, Transportation Inc, and Many More!

INSTRUCTORS

The quality of an instructor can make or break your educational experience. For this reason, Company Inc has worked tirelessly to build a team of reliable, intelligent, and effective industry professionals, who compliments our exceptionally crafted IT curriculums. Each and every instructor at Company Inc has dedicated years to mastering their respective technologies and bring the same passion and dedication into the classroom.

24/7 VIRTUAL LABS

Practice makes perfect and IT training is nothing without dedicated practice to utilize the concepts you will learn. Fortunately, Company Inc provides students with a 24/7 remotely accessible virtual lab environment. Our innovative virtual lab solution is fully equipped

with a multitude of technology licenses. Thanks to our remote access connectivity, students can build their technological skills wherever and whenever they please.

MENTORSHIP

At Company Inc, mentorship begins at first contact. Before enrolling in courses, students are informed by their mentors of industry trends and market demands for IT. Mentors help students assess their strengths to determine the best career path for them.

Throughout the course, Company Inc mentors continuously enhance the learning experience with motivation calls and conversations about career trajectory. As students approach the second half of their learning path, mentors begin to introduce concepts such as resume building, technical and non-technical interview training, and job search assistance. Company Inc specializes in 100% job placements assistance.
